Education

Mumbai University

Bachelor of Technology in Information Technology

Feb. 2021 – May 2024

Navi Mumbai, Maharashtra

Summary

Dedicated software developer with hands-on experience in building web applications using the MERN stack. Proficient in Redux and Redux Toolkit for state management. Passionate about learning new technologies and delivering high-quality software solutions.

Experience

Enpointe IT Services Pvt. Ltd.

Full Stack Developer Intern

Jan. 2025 – May 2025

Mumbai, Maharashtra

- Built scalable and responsive web applications using React.js, Node.js, and Express.js.
- Contributed to the **Yash Raj Films Project** by developing key modules of the HRMS frontend using React, Tailwind CSS, and REST API integration.
- Collaborated closely with designers and backend developers to ensure seamless user experience and integration.
- Performed debugging, performance tuning, and testing to ensure optimal application performance.
- Followed best coding practices and maintained detailed documentation for project deliverables.

Unified Mentor

Full Stack Web Developer Intern

Oct. 2024 – Dec. 2024

Thane, Maharashtra

- Developed and optimized user-friendly web applications using React, Node.js, and Redux Toolkit.
- Implemented an admin dashboard with role-based access control and CRUD operations.
- Utilized Redux Toolkit for state management, ensuring seamless data flow and enhancing user experience.
- Integrated RESTful APIs for efficient backend communication.
- Ensured cross-device compatibility with responsive design.

Projects

AnimFy | MERN Stack, Cloudinary, Redux & Redux Toolkit

[Link](#) [Github](#)

- Developed a dynamic interface for users to watch anime trailers and access detailed information.
- Implemented secure authentication using JWT and cookies.
- Created an admin dashboard for uploading new anime content using Cloudinary.
- Ensured a responsive and user-friendly interface.

Fascle | MERN Stack, Cloudinary

[Link](#) [Github](#)

- Developed a responsive dashboard application using the MERN stack.
- Implemented dynamic sorting, pagination, and filtration capabilities.
- Integrated debouncing technique to optimize search functionality.
- Incorporated Cloudinary for secure image hosting.

Dr Appointment System | MERN Stack

[Link](#) [Github](#)

- Implemented user authentication and authorization.
- Developed an admin panel for managing users and doctors.
- Utilized Redux and Redux Toolkit for state management.
- Integrated Atlash MongoDB for robust data storage.

Technical Skills

Languages: HTML5, CSS3, JavaScript, C++.

Developer Tools: Redux Toolkit, Postman, Bootstrap, MongoDB Compass, Git, GitHub.

Technologies/Frameworks: ReactJS, NodeJS, ExpressJS, TailwindCSS, JWT, NextJS.

Soft Skills: Hardworking, Adaptability, Team Collaboration, Problem Solving.
